**FIVE OF FIVE MUSIC ENTERTAINMENT SEEKS UNSIGNED RECORDING
ARTISTS FOR ANNUAL ARTIST-OF-THE-YEAR PROJECT**

The Music Industry Studies (MIS) program at California State University, Northridge (CSUN) provides students a deep understanding of every facet of the music industry. Seniors in the program are tasked with putting this knowledge to practical use in a “student-run, faculty-advised” music entertainment label known as Five of Five Music Entertainment (VVME). Each year, VVME selects one developing act as its “Artist-of-the-Year” and works to help that artist take the next step in their career, whatever that step may be.

Currently, VVME is seeking submissions from talented artists looking to take their career to the next level. Anyone interested must submit a three-song demo along with a short artist/band bio and complete list of contact information to vovtalentsearch@gmail.com by **October 18, 2016**. From these submissions, three finalists will be chosen to compete in THE PITCH – a battle of the bands style event held to determine the Artist-of-the-Year, which will take place on the CSUN campus on **November 14, 2016**. Final selection of the Artist-of-the-Year will be announced on November 22, 2016.

VVME Co-Executive Producer Adam Zanoff explains, “...Not only will we be able to put into action the things we have been studying for years, but an artist wins the opportunity to be recorded and managed by a team of very talented and dedicated people who want to help them

take the next step in their career. I'm looking forward to finding an act who is as dedicated to their musical career as we are."

All interested acts are encouraged to submit. For further inquiries regarding submissions, please contact Amsi Hernandez, Director of A&R, at fiveoffive.artistmanagement@gmail.com. For further information on VVME, visit <http://www.fiveoffivemusic.com/> and <https://www.facebook.com/fiveoffivemusicentertainment>.
